April 16, 2003

To Whom It May Concern,

Oak Hill Banks has recently completed a 12,000+ square foot renovation project, whereby converting a former CVS Pharmacy into our Regional Administrative Headquarters. Hudepohl Construction was the primary contractor in the renovation project.

This letter will serve as a recommendation for Hudepohl Construction in any type of building or renovation project. The work performed for Oak Hill Banks was both on schedule and within the budgetary parameters as established by the Bank. In my opinion, the professionalism and craftsmanship exhibited by Hudepohl Construction was of the highest standard.

If I can be of further assistance or provide additional information regarding the relationship that we have established with Hudepohl Construction, please feel free to contact me.

Sincerely,

Miles R. Armentrout
Regional President
